The industry

Tower and Fiber Business – Long-Term Predictable Revenue with Upside

PREDICTABLE REVENUE

Long-term contracts* (10 years for tower and can be longer for fiber), **non-cancellable** and renewable

DEPENDENT TENANTS

Contract renewal likely due to high relocation cost and significant network impact

UPSIDE FROM ADDITIONAL REVENUE

Incremental revenue from colocation or higher asset utilisation at minimal additional cost

HIGH BARRIERS TO ENTRY

Significant investment needed, as well as economies of scale, knowledge of government rules and local conditions

FAST GROWING INDUSTRY

- **Surging data demand** creates need for more towers and fiber
- 4G consumers require reliable and high speed internet leading to increase tower fiberisation
- Impact from 5G to come in 2-3 years

**In general, lease price includes annual inflation escalator for opex portion*

Typical Tower Company Growth Model
